WHAT IT COSTS.

Let us see what the enforced joy a policy which within the last two years has robbed them of 50, ooo of their most liberal potrans. idleness of the Commercial traveler means. The statistics have been conservatively prepared by the president of the 'Travelers' Association, who shows that it represents an annual loss of \$114,000,000

This means that \$114,000,000 withdrawn from the annual distribution of money in legitimate channels of trade.

The items are divided into a loss press and sleeping car companies an amount equal to the entire surplus earnings of the railroad companies of the United States for the year 1898. But the railroad magnates, who are not worrying about the boys along the l.ne, will get their money back by the trusts, have no fear.

The hotels of the country are in a different position. They must suffer a dead loss of 28,000,000. How does "Mine host" enjoy the medicine? Will he vote to indorse the party which is responsible?

The traveling men have lost \$60,-000,000 in salaries. Sixty [million dollars a year is quite an item to the families of men who have been compelled to live a life of openhanded generosity, and whose savings must necessarily be small.

NOT MONEY GRABBERS.

The commercial traveler has not been a hoarder. He has not been a money-grabber. His value to his employer rested upon the friendships which he won. His firm expected him to be popular. It expected him to "hold up his end" in the interchange of courtesies and hospitalities along the line. As a rule he was a man of personal pride, and his sense of honor Ohio." stood between him and a parsimonious regard for the dollar.

When the trusts struck him down without warning, and sent him adrift without sympathy, he was indeed lucky if he stood even with the world. (Crtes of "that's so!")

I speak of the commercial traveler because his, more than any other class, represents the general mont, 4; Wisconsin, 12; Wyoming, four years ago are for him now, condition of the country. We might speak of them catagorically, from the proprietor of the first-class hotel to the caterer of the humblest lunch counter. from the barber to the boot-black, and, having completed the list, ask of those affected how they enjoy this policy.

THE VIEW OF CHAIRMAN JONES

Counts 263 Votes Certain For Bryan and 87 More Doubtinl.

In an estimate of the probable result of the national election furnished the Age-Herald, Chairman J. K. Jones, of the National Committee, says regarding reports he has received at the Democratic supporting the concentration of campaign headquarters:

From these reports I feel satisfied that the Democrats will carry Alabama, Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Indiana, Kansas, Kentucky, Louisiana, Maryland, Mississippi, New York, Missouri, Montana, Nebraska, Nevada, North Carolina, South Carolina, Tennessee, Texas, Utah. Virginia, Washington and West Virginia, making a total of 263 electoral votes.

The Republicans will carry Connecticut, Iowa, Maine, Massachusetts, New Hampshire, North Dakota, Oregon, Pennsylvania, Rhode Island, Vermont and Wisconsin, with a total of 103 electoral votes.

These States are reasonably in doubt: Illinois, Michigan, Minnesota, South Dakota, Wyoming and New Jersey, with 87 electoral votes.

Of the doubtful States I regard the chances of the Democrats to be better in Illinois, Michigan and South Dakota. I think the Republicans have the upperhand in the others. As I said at the beginning, it is impossible to accurately gauge the result of a national election in advance, but as close as I can get at it, by the information I receive daily from trusted associates in every corner of the country, I feel absolutely satisfied that Bryan and Stevenson will be elected, and that the States I have named will vote in the manner indicated.

THE NATION IN PERIL.

We are now engaged in a costly and bloody struggle in the Philippines that could and should have been avoided by recognizing the

right of the people to rule themselves; and under the imperial policy, now for the first time proclaimed to the country and to the world, the president inaugurates war in the far distant East, without the authority of congress and in defiance of the supreme law of the nation; and has made and prosecuted war, and proposes to make peace' with all the authority of the czar of

The nation is thus in peril from the threatened subversion of the sovereign power of the land that is capital against the interests of labor; that is debauching our political system by the open collection of millions of money from protected trusts to expend in the national political contest, and that has inaugurated a reign of reckless profligacy and extravagance unexampled in the history of the nation. It must be halted by the people if they would preserve their own government "of the people, by the people and for the people," and it can be done only by the election of William J. Bryan as the next president .- Col. McClure, in Philadelphia Times, a republican who voted in 1896 for McKinley.

CAME NEAR DYING.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Ioway. "I thought I should surely die, and tried a dozen different medicines but all to no puryose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely. I went to sleep and did not awake for eight hours. On awakening a few hours ago I felt so gratified that the first work I do on going to the office is to write to the manufacturers of S. H. Shanks, this remedy and offer them my A. W. Some of Dr. John Williams' supporters and relatives are arraigning the SIGNAL, in harsh terms, because it merely, incidentally, referred to his Junction City escapade We have no desire, whatever, to misrepresent Dr. Williams, because we are his friend and not his enemy We attribute though some sense to the managers of Dr. Williams' campaign because they know what was done and said on that unfortunate day for Dr. Williams and have said nothing. We have been generous with our fellow-townsman during the campaign. We have been furnished information from Louisville concerning his conduct there but we refused to publish it. We have received very damaging proof from our neighbor town of Stanford, yet we have not published it. While we believe the people ought to know these things and they should have weight with the people in casting their votes, yet we have with-held them from the columns of the SIGNAL. We also have informa tion concerning his conduct in San Francisco on his return from the Philippine Islands, and that information was furnished us by Republican, still we have said noth ing about that. Our motto has been to treat people fairly and at all times adhere to the truth but as we are accused of tell ing "a base lie" on the Doctor, we now charge him with conduct that should defeat him at the polls, all the people are not like him. We propose to vindicate ourselves and show that what we print one week we can prove the next, if necessary; and we say now that for the attack on the paper, and that only, do we publish this

At 12:30 o'clock, a procession was formed about a half mile from town, led by the Band, marched down the street, around the Court House square and back to the depot, where they remained until the arrival of Congressman Gilbert at 2 o'clock. To the true-bloods of Lincoln, we are greatly indebted forced to indulge in such charges Fifty-six of the 150 horseback riders were from our sister county. and the following inscriptions were on the banners which they bore: NAL it will always be found able 'Crab Orchard Smooth Riders.' 'Bryan, Beckham and Gilbert,' 'Down with Trusts," "Down On a large poster and under the With Assassination," "We Are flash head lines of "Red-handed Democrats," "We Are No Free Excursion, But We Get There All ment supposed to have been said The Same," I Am No Voter But by Senator Joe Blackburn as fol-Pap Is." Every one who witnessed it, said that it was the most orderly crowd that they had seen in many a day. If there was any man in the crowd, who was intoxicated in the least, no one was able to detect, and there was not a loud word spoken by any Democrat dur-

> ing the entire day. After arriving at the Court house C. C. Williams arose and introduced the Hon. J. Mort Rothwell of Lancaster, who spoke for about fifteen minutes, dealing, as he ways does, many death blows to the Republican party. Mr. Gilbert followed next, and spoke for one hour and fiften minutes, deal ing in a most conservative way with both State and National is sues. At 3:45 p. m. he left on the local freight for Livingston, where he spoke that night to a large and enthusiastic crowd of Democrats. many Republicans being present, and some gave their assurance of voting for him on the sixth of November.

From Livingston he went to Wildie, where he spoke Tuesday; and from there to Brodhead, Tuesday night. Large crowds, including many Republicans, were out to hear him at both of the later places day.

Mr. Gilbert has no fears but what he will be the next Congressmar from the Eighth district.

written by some one signing as 'Tax Payer," setting forth, as he no doubt thinks strong argument in favor of the bond issue and seems to think that all parties not seeing as he does, are against their own interests, and says that some that are opposed to those bonds say the promoters of the pikes propose to start in about four ways from Mt Vernon. This tax payer says that no such thing was ever thought of. Say they propose to build a pike from the Laurel line to the Lincoln line and another from the Pulaski line to Madison line. Now, Mr. Tax Payer, tell the people (in plain words where you propose to begin those pikes? Do you propose to begin at the line of those counties named, and build the road through by way of Mt. Vernon, or do you propose to begin those roads at Mt. Vernon and build them towards those county lines. That is one question we, in the country, want you to answer plainly. Then you say those bonds will be readily paid off and in a few years, aclually have a surplus. Now we in the country cannot see just how that can be when the interest on those bonds will amount to \$1,200 per annum. Now, we in this part of the county want good roads, but we want them all over the county and are honest in the belief that we will not get them by advocating this pike question. In the first place, there will be a rock crusher to buy and experienced hands to run it, and surveyors to locate the pikes you propose to build, and by the time you get ready to go to work on the pikes one-third of the money for which those bonds are sold will be exhausted. Then after the few miles of pikes are built, that the money will build, that is left, the taxpayer will have to be taxed to keep up those few miles of turn pikes together with a tax to still keep up the county roads. My opinion is that to take the money you propose to expend on those pikes and put out on the county roads, we would see a great deal better results than the few miles of pike that could be built with this money. But we are willing to listen to the arguments of Mr. Tax Payer, but we want the questions answered, so there will be no misunderstanding

IT HAPPENED IN A DRUG STORE.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would Macedonia, Monday, Oct. 29 at refund the price paid. In the course of a day or tow the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy."
